

**ARTICULATION AGREEMENT
BETWEEN
ST. LOUIS COMMUNITY COLLEGE
AND THE CURATORS OF THE UNIVERSITY OF MISSOURI
ON BEHALF OF THE UNIVERSITY OF MISSOURI**

**Associate of Arts
to a Bachelor of Health Science in Clinical and Diagnostic Sciences
with Emphasis in Nuclear Medicine**

OVERVIEW:

This articulation agreement is made and entered into by The Curators of the University of Missouri on behalf of the University of Missouri, hereinafter referred to as MU, and St. Louis Community College in St. Louis, Missouri, hereinafter referred to as STLCC and hereafter, collectively referred to as “the institutions.” By this agreement, STLCC and MU express a shared commitment to increasing opportunities for student access to and success in higher education. By clarifying transfer policies and procedures, which assure articulation between programs, the institutions seek to assist students in making a seamless transfer from the associate to the baccalaureate degree.

PURPOSE:

This agreement provides students who have earned an Associate of Arts (AA) at STLCC the opportunity to complete a Bachelor’s of Health Science degree in Clinical and Diagnostic Sciences with Emphasis in Nuclear Medicine (BHS-CDS-NM) at MU. Any STLCC student who has earned the AA and adheres to the guidelines within this agreement is guaranteed that MU will accept designated freshman and sophomore education credits and will apply such to the BHS-CDS-NM degree in a manner consistent with the treatment of native MU students.

CONDITIONS OF TRANSFER:

Section I: Admissions and Matriculation

STLCC students maintaining continuous enrollment under this agreement will be afforded the same treatment and protections as native MU students enrolled under a specific catalog.

Students transferring from STLCC to MU will gain admission to the University and be accepted into the BHS-CDS-NM program must have a 2.5 cumulative college GPA, a C- or better in all required coursework and an AA from STLCC.

Transfer students from STLCC will have access to financial aid and student services on the same basis as native students. MU will apply the same academic progress and graduation standards to STLCC transfer students as those applicable to native students at MU.

MU and STLCC will maintain transfer degree plans for these programs to show equivalent courses.

Section II: Transfer of Credit

The transcript(s) from all previous institutions attended by a student transferring from STLCC shall be on file and evaluated by the MU Office of Admissions. MU will accept all transfer credits from a regionally accredited college or university, except any courses that are technical, vocational or developmental, from STLCC to be applied to the Bachelor's of Health Science degree unless specifically articulated via the transfer guide referenced in this agreement.

While there is no maximum number of credit hours that can be transferred by a student from STLCC to MU, 30 hours of credit must be completed with MU authored courses to be applied to the Bachelor of Health Science in Clinical and Diagnostic Sciences with Emphasis in Nuclear Medicine.

Transfer students from STLCC upon acceptance into the BHS-CDS-NM program at MU will have junior standing.

Section III: Transfer Guides

A Transfer Guide will be developed and periodically updated cooperatively between MU and STLCC. Each Transfer Guide will specify the MU degree course requirements and equivalent STLCC courses. All Transfer Guides will be considered addendums to this agreement and are subject to revision. For a given catalog year, the most recent Transfer Guide will take precedence over all previous Transfer Guides.

MU academic advisors will be available to communicate with students seeking enrollment in this program regarding: course enrollment, academic standing, GPAs, transfer timelines, degree progress, and program standing on a routine basis.

COMMUNICATION AND PROGRAM CONTACTS:

Any notice, request, demand or other communication required by or permitted under this Agreement shall be in writing and shall be deemed to have been duly given when received by the party to whom directed; provided, however, that notice shall be conclusively deemed given at the time of deposit in the United States mail and sent by certified or registered mail, postage prepaid, to the other party at the following address:

University of Missouri, Attn: Mitzi Clayton, Director of Community College Relations, 211 Jesse Hall, Columbia, MO 65211

St. Louis Community College, 3221 McKelvey Road, Bridgeton, MO 63044

TERMS OF AGREEMENT:

This agreement is effective beginning with the academic year 2024-25 and remains in force unless changed in writing by mutual agreement of both parties. This agreement may be amended at any time with approval of both parties and is subject to regular review to assure currency with the respective degree requirements. Should either party desire to discontinue this agreement, advance notification of one year will be required.

GENERAL PROVISIONS:

The institutions acknowledge that they are separate and independent entities, and that this agreement shall not be construed to create a partnership, joint venture or any other organizations combination of the parties, nor shall it authorize either party to act as an agent for or bind the other party on any matter.

This agreement does not contemplate the payment of any fee or remuneration by either party to the other relating to the transfer of academic credit, but is intended to jointly benefit both the educational mission of both institutions.

Nothing in this agreement shall be construed as creating or giving rise to any rights in any third parties or any persons other than the parties hereto.

This agreement may be amended at any time by mutual agreement of the parties, provided that before any amendment shall be operative or valid, it shall have been reduced to writing and signed by both parties. If any provision of this agreement is found to be in conflict with the provisions of any governmental law, rule or regulation, such provision shall be severable and the remainder of this agreement shall not be impaired and shall remain in full force and effect.

This agreement and the rights of the parties shall be construed and governed according the law of the State of Missouri.

SIGNATURES:

The St. Louis Community College of St. Louis, Missouri and The Curators of the University of Missouri on behalf of University of Missouri enter into this program articulation agreement by the affixing of signatures of the chief executive officers of both institutions.

Transfer Guide for St. Louis Community College

This transfer guide is intended to help you prepare for your transfer from St. Louis Community College's **Associate of Arts (AA)** to the **Bachelor of Health Science in Clinical and Diagnostic Sciences with Emphasis in Nuclear Medicine (BHSCDS-NM)** degree at MU. *This plan is not a substitute for academic advising.* Before following this guide, we encourage you to contact an advisor in the College of Health Sciences (CHS) Student Services Office for further information about degree requirements, course selection, and graduation requirements. Additional program requirements may be needed.

Transfer Admission Requirements

Admission to Mizzou:

To meet the general admission requirements at Mizzou, you must meet one of the following:

- Have 24 or more completed college-level credits with a 2.5 GPA and either
 - a C- or better in a transferable math course (intermediate algebra or higher or statistics) or
 - a C- or better in a transferable English comp course (English comp 1 or higher).
- Meet MU's freshman admission requirements and have a 2.5 GPA in college-level transferable coursework. (No requirement on the number of completed college-level credits.)
- Have a 2.0 GPA from a regionally accredited Missouri community college, and either
 - an associate of arts (AA) degree or
 - the Missouri Core 42 designation from a regionally accredited Missouri college.

Admission to MU does not guarantee admission to the BHSCDS-NM program, which requires a separate application, including an interview, to be admitted to the professional undergraduate program. The BHSCDS-NM program requires a minimum 2.5 GPA to apply, and a minimum C- grade or higher in pre-requisite coursework, though competitive applications are usually higher. It is therefore highly recommended that students refer to the College of Health Sciences website and work with an MU academic advisor and/or program director as they prepare for application.

Other Resources

Check the following websites for current course descriptions, prerequisites, course equivalencies and other specific details about the degree:

- 1) College Catalog (<http://catalog.missouri.edu>)
- 2) Transfer Admission (<http://transfer.missouri.edu>)
- 3) Transfer Equivalencies (<http://transfercourses.missouri.edu> or <https://www.transferology.com/school/missouri>)
- 4) General Education (<http://generaleducation.missouri.edu>)
- 5) College of Health Sciences, Nuclear Medicine Program website (<https://healthsciences.missouri.edu/nuclear-medicine/>)

Associate of Arts (AA) Degree

The AA degree meets general education requirements. No further general education requirements must be taken once transferred for AA completed in Missouri accredited community college.

MOTR Courses

Courses designated with a Missouri Transfer (MOTR) course number guarantees the one-to-one transfer of these credits.

How to use this Guide

Listed below are the courses required for St. Louis Community College AA and MU-BHSCDS-NM degrees. On the left side is the MU course name and number, on the right side is your current institution course name and number. Courses that directly transfer will be listed. Work with your academic advisor to select courses that meet your major and your current institution requirements. We strongly recommend consulting with a CHS academic advisor prior to the beginning of your second year of enrollment at St. Louis Community College.
